

CARBONIZED & FUMED COLLECTION

The Carbonized & Fumed Collection is an engineered hardwood floor created using 3-ply cross finger construction. It has a 5mm sawn French Oak face with a solid wood core and back. Featuring a light wire brushed face and micro beveled sides. Carbonized is created in a kiln by heating the wood and producing a rich warm brown coloration. Fumed is also heated in a kiln but adds ammonia gases to produce rich dark tones.

Species:	French Oak
Color:	2 Colors
Install:	Glue, Nail, Float
Wear Layer:	5mm Sawn
Thickness:	3/4"

Width:	8"	10"
SF/Carton:	18.94	30.67
Length:	87"	114"
Avg. Length:	4'	6-7'
Shortest Pc:	18"	27"

CUSTOM PREFINISHING

Bona Matte Urethane is an industrial grade ultra-matte UV cured finish from Bona IC. Designed to withstand high levels of wear and scratch resistance. The urethane finish adheres to the wood and creates a barrier over the surface protecting the wood. Available in 12 standard colors. Custom colors available.

Osmo Natural Oil is an open-pored UV Cured finish that is 100% solids, no VOCs, self-sealing, and top coat. This finish works by using natural oil that penetrates deep inside the wood to strengthen the inner properties and create a barrier against dirt and wear. Available in 20 standard colors. Custom colors available.

Woca Neutral Oil is a neutral/invisible finish that gives the look of raw wood while still protecting the wood surface. Once applied, the finish is completely invisible but ensures a saturated and dirt resistant surface. This finish allows for the natural beauty of the wood to show through while still ensuring a long lasting product.
